| Issue Date: | 16/05/2019 | Service Type: | Education |
| Next Review Due: | 01/05/2020 | Policy Location: | Policy File |

1. Aim of the policy

To outline the management of no smoking in school

2. Policy

2.1. Health and Safety

The Greater Horseshoe School is committed to promoting the good health of its employees and pupils, and to the provision of a safe working environment.

The Governing Body has a duty, under health and safety legislation, to ensure the health, safety and welfare of all employees, including the working environment 'so far as is reasonably practicable' and is committed to fulfilling this duty by providing a smoke free environment for all staff, pupils and visitors to the school.

2.2. Access to policy

This policy is also accessible to:

- All staff (permanent, temporary, supply or otherwise)
- Advisers/Inspectors
- Parents/carers (on request)
- Students (on request)

The policy can also be found in the master policy file in the Head Teachers room.

At the Greater Horseshoe School, we believe that smoking is harmful to health.

Secondhand smoke (passive smoking) – breathing other peoples' tobacco smoke, has now been shown to cause lung cancer and heart disease in non-smokers as well as many other illnesses and minor conditions.

No Smoking Policy

Staff, parents, governors, pupils and visitors will be made aware that the school is a non-smoking establishment (including the use of e-cigarettes and “vaping”). Notices are displayed around school to inform visitors that smoking is prohibited both inside and outside of the school premises and this includes cars, delivery vans, work vehicles etc.

Scope This policy applies to all teachers and employees in the school where the Governing Body has delegated powers.

This policy applies to students, visitors and contractors regardless of their status or business with the school.

Smoking is not allowed in any part of the school’s premises and grounds including offices, corridors, toilets and car parks.

2.3. The specific objectives of the policy are as follows:

- to contribute to a healthy and safe environment for employees, pupils and visitors;
- to ensure that all staff, pupils and visitors to the school’s premises benefit from a smoke free environment;
- to protect employees from the hazards of second-hand smoke inhalation whilst at work;
- to heighten staff awareness of the health risks associated with smoking;
- to set good examples to students around the dangers of smoking and promoting healthy living;
- to provide opportunities, assistance and support to those employees who wish to give up or cut down smoking;

2.4. Policy Provisions

All school staff are made aware that we do not permit smoking on the school premises (inside or outside) or in the immediate vicinity of the school.

Advertisements for new staff indicate that the school has a no-smoking policy. Staff who are smokers will be encouraged to give up smoking.

In order to set a good example and lead the way in promoting healthy living initiatives the Governing Body expect that before smoking, any school identity wear should be removed.

The Governing Body would also expect that staff will consider the appearance of the school when leaving the premises to smoke and avoid congregating outside school gates and driveways.

School staff and visitors are made aware that the use of e-cigarettes and “vaping” is not allowed on school premises;

Display appropriate no smoking signs at entrances;

No Smoking Policy

Display appropriate no smoking signs in the passenger carrying compartments of school owned vehicles;

Support and Assistance for Smokers, the Governing Body is committed to helping smokers comply with the policy and on request can refer staff to the smoking cessation service offered by the Occupational Health Unit. Further advice and support on stopping smoking can be obtained from www.nhs.uk/smokefree

Enforcement If a member of staff is found to have breached this policy it will be appropriate to ensure they are aware of the details and requirements of the policy. Repeated breaches of this policy may be considered as misconduct under the disciplinary procedure.

Monitoring and Reviewing It is the responsibility of the Head Teacher to ensure that this policy is fully implemented. This policy will be reviewed every 2 years and approved by the Health & Safety and Premises Committee.

3. Equality Impact Statement

All relevant persons are required to comply with this policy and must demonstrate sensitivity and competence in relation to diversity in race, faith, age, gender, disability and sexual orientation. If you, or any other groups, believe you are disadvantaged by this policy please contact the Group Director for Education and Learning. Enhanced Children's Services will then actively respond to the enquiry.
